## Avoiding Extinction

What does "conservation" mean to you?

---

---

---

The IUCN helps the world find practical solutions to our most pressing environmental challenges.  
What does IUCN stand for?

---

---

---

Number the below statuses from best to worst in terms of population level.

**Critically Endangered**

**Vulnerable**

**Least Concern**

**Near Threatened**

**Extinct in the Wild**

**Extinct**

**Endangered**

To help raise funds to conserve threatened species, conservation groups rely on public contributions.  
What are the challenges of this? Hint – what type of animals do people care about?

---

---

---

# Ocean Teens

## Avoiding Extinction

How could you encourage more people to invest in the more “unpopular” animals?

---

---

---

As an individual **YOU** can make a difference - list 5 conservation actions that you can do every day:

Habitat	Conservation Issues	Cause	Solution
Antarctica			
Southern Ocean			
Rocky Shores			
Open Ocean			
Coral Reefs			
Freshwater
