

# PLASTIC IS RUBBISH

Plastic and pollution can threaten a lot of different animals and their habitats.

Circle what shouldn't be in the sea and write why in the bubbles.

## Fill in the blanks:

Many sea turtles think \_\_\_\_\_ look like jellyfish so they accidentally eat them. This can be very dangerous and make the \_\_\_\_\_ very unwell. We can help the turtles by making sure we \_\_\_\_\_ our use of plastics and use a \_\_\_\_\_ when we go shopping.

# PLASTIC IS RUBBISH

**Single use plastics are plastics that we use once and throw away. A lot of these can't be recycled and can end up in our oceans!**

**Look at the single use plastics below and think of what we can swap these for. Draw and write what you think we can use instead.**
