CORAL REEFS

Discover more about the rainforests of the sea with some fin-tastic activity sheets

DID YOU KNOW?

The Great Barrier Reef is the largest living thing on the entire planet!

Coral Reefs only occupy 0.1% of the ocean but support 25% of all sea creatures on Earth!

The Great Barrier Reef makes up around 10% of the world's coral reef ecosystems

MATCH THESE REEF-LATIONSHIPS

Did you know that coral reefs are filled with partnerships where two different creatures rely on each other? This is called a symbiotic relationship.

Can you pair up these reef symbiotic relationships?

Sea Anemone

Decorator Crab

Grouper

Cleaner Wrasse

Sea Sponge

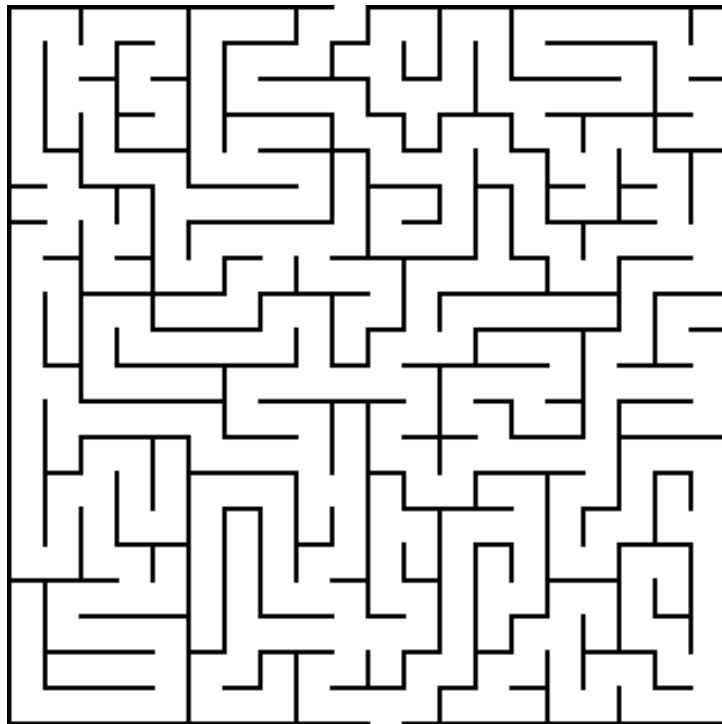

Clownfish

LUNCHTIME!

Can you help our green sea turtle find her lunch?

Sea turtles are one of the larger creatures that can be found in and around coral reef environments. Unlike most sea turtles, green sea turtles love a veggie diet! They mainly eat marine plants such as sea grass and seaweed.
