

## Design Your Dragon Mask!

Have fun this Lunar New Year by creating your very own dragon mask!

### Instructions

1. Grab your favourite coloured markers to colour in your dragon mask template on the following page.
2. Once you are finished with your colour design, carefully cut around the outside of the mask and poke two little holes in the side of the face of the mask.
3. Cut a piece of string, ribbon or elastic- make sure it is big enough to go around your head.
4. Thread the string through the little holes on the side of the mask, tie a small knot. Do the exact same process with the other end of the string.
5. And WOW - your dragon mask is now complete!

### Materials:

Dragon head  
template  
Scissors  
Markers or Crayons  
String or elastic
