

Watch the Octopus video and analyse how this animal survives in a rockpool environment.

1. Identify and describe behavioural adaptations of the octopus.

---

---

---

2. Explain how these adaptations support survival.

---

---

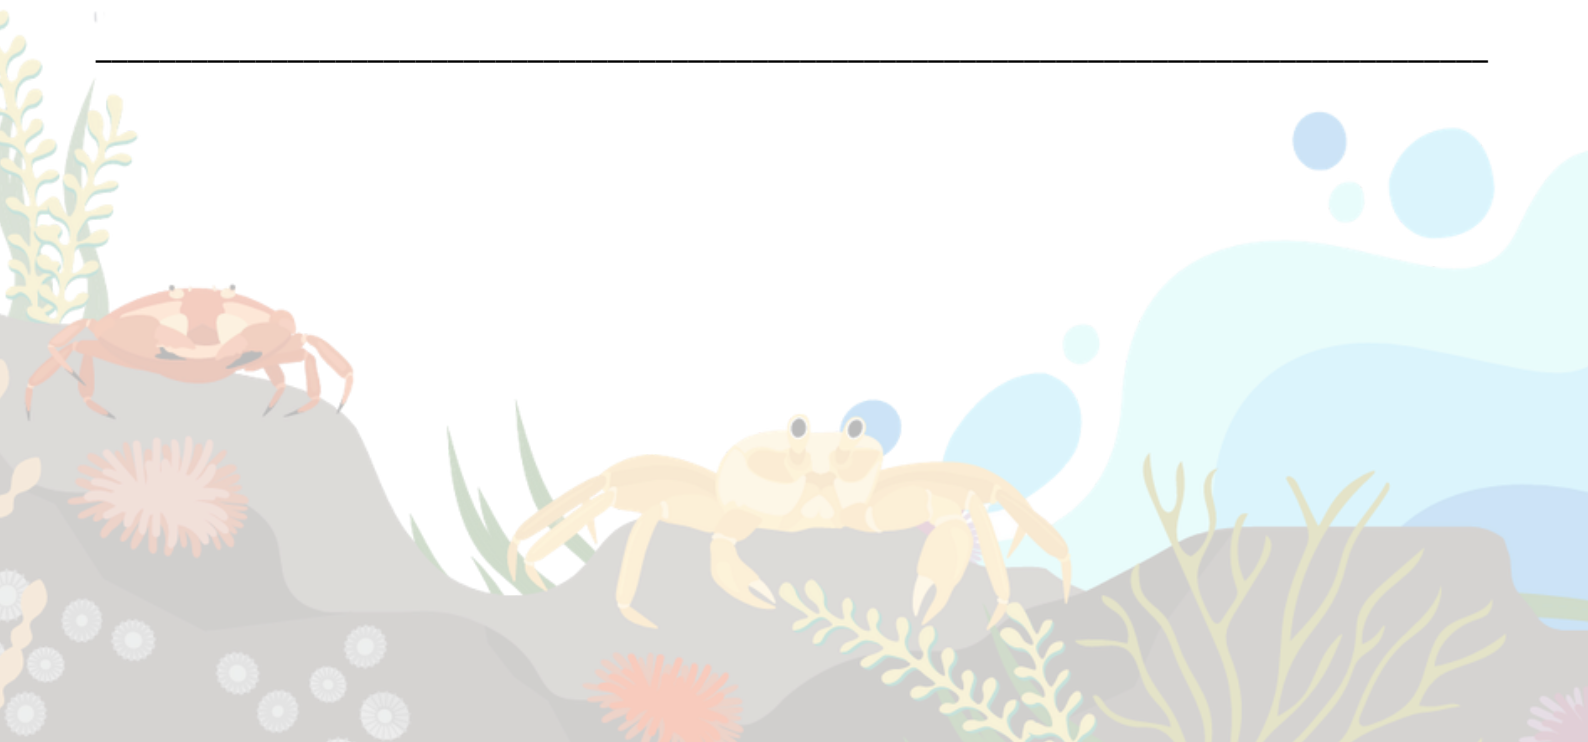

---

3. Describe the environment the octopus is living in and how it responds to it

---

---

---

4. How does the octopus use camouflage? Why is this important in a rockpool environment?

---

---

---

5. How does this behaviour help it avoid predators?

---

---

---

---

6. Compare the octopus to another rockpool organism. Explain how their survival strategies differ.

---

---

---

---

---

---
